

Capability Statement

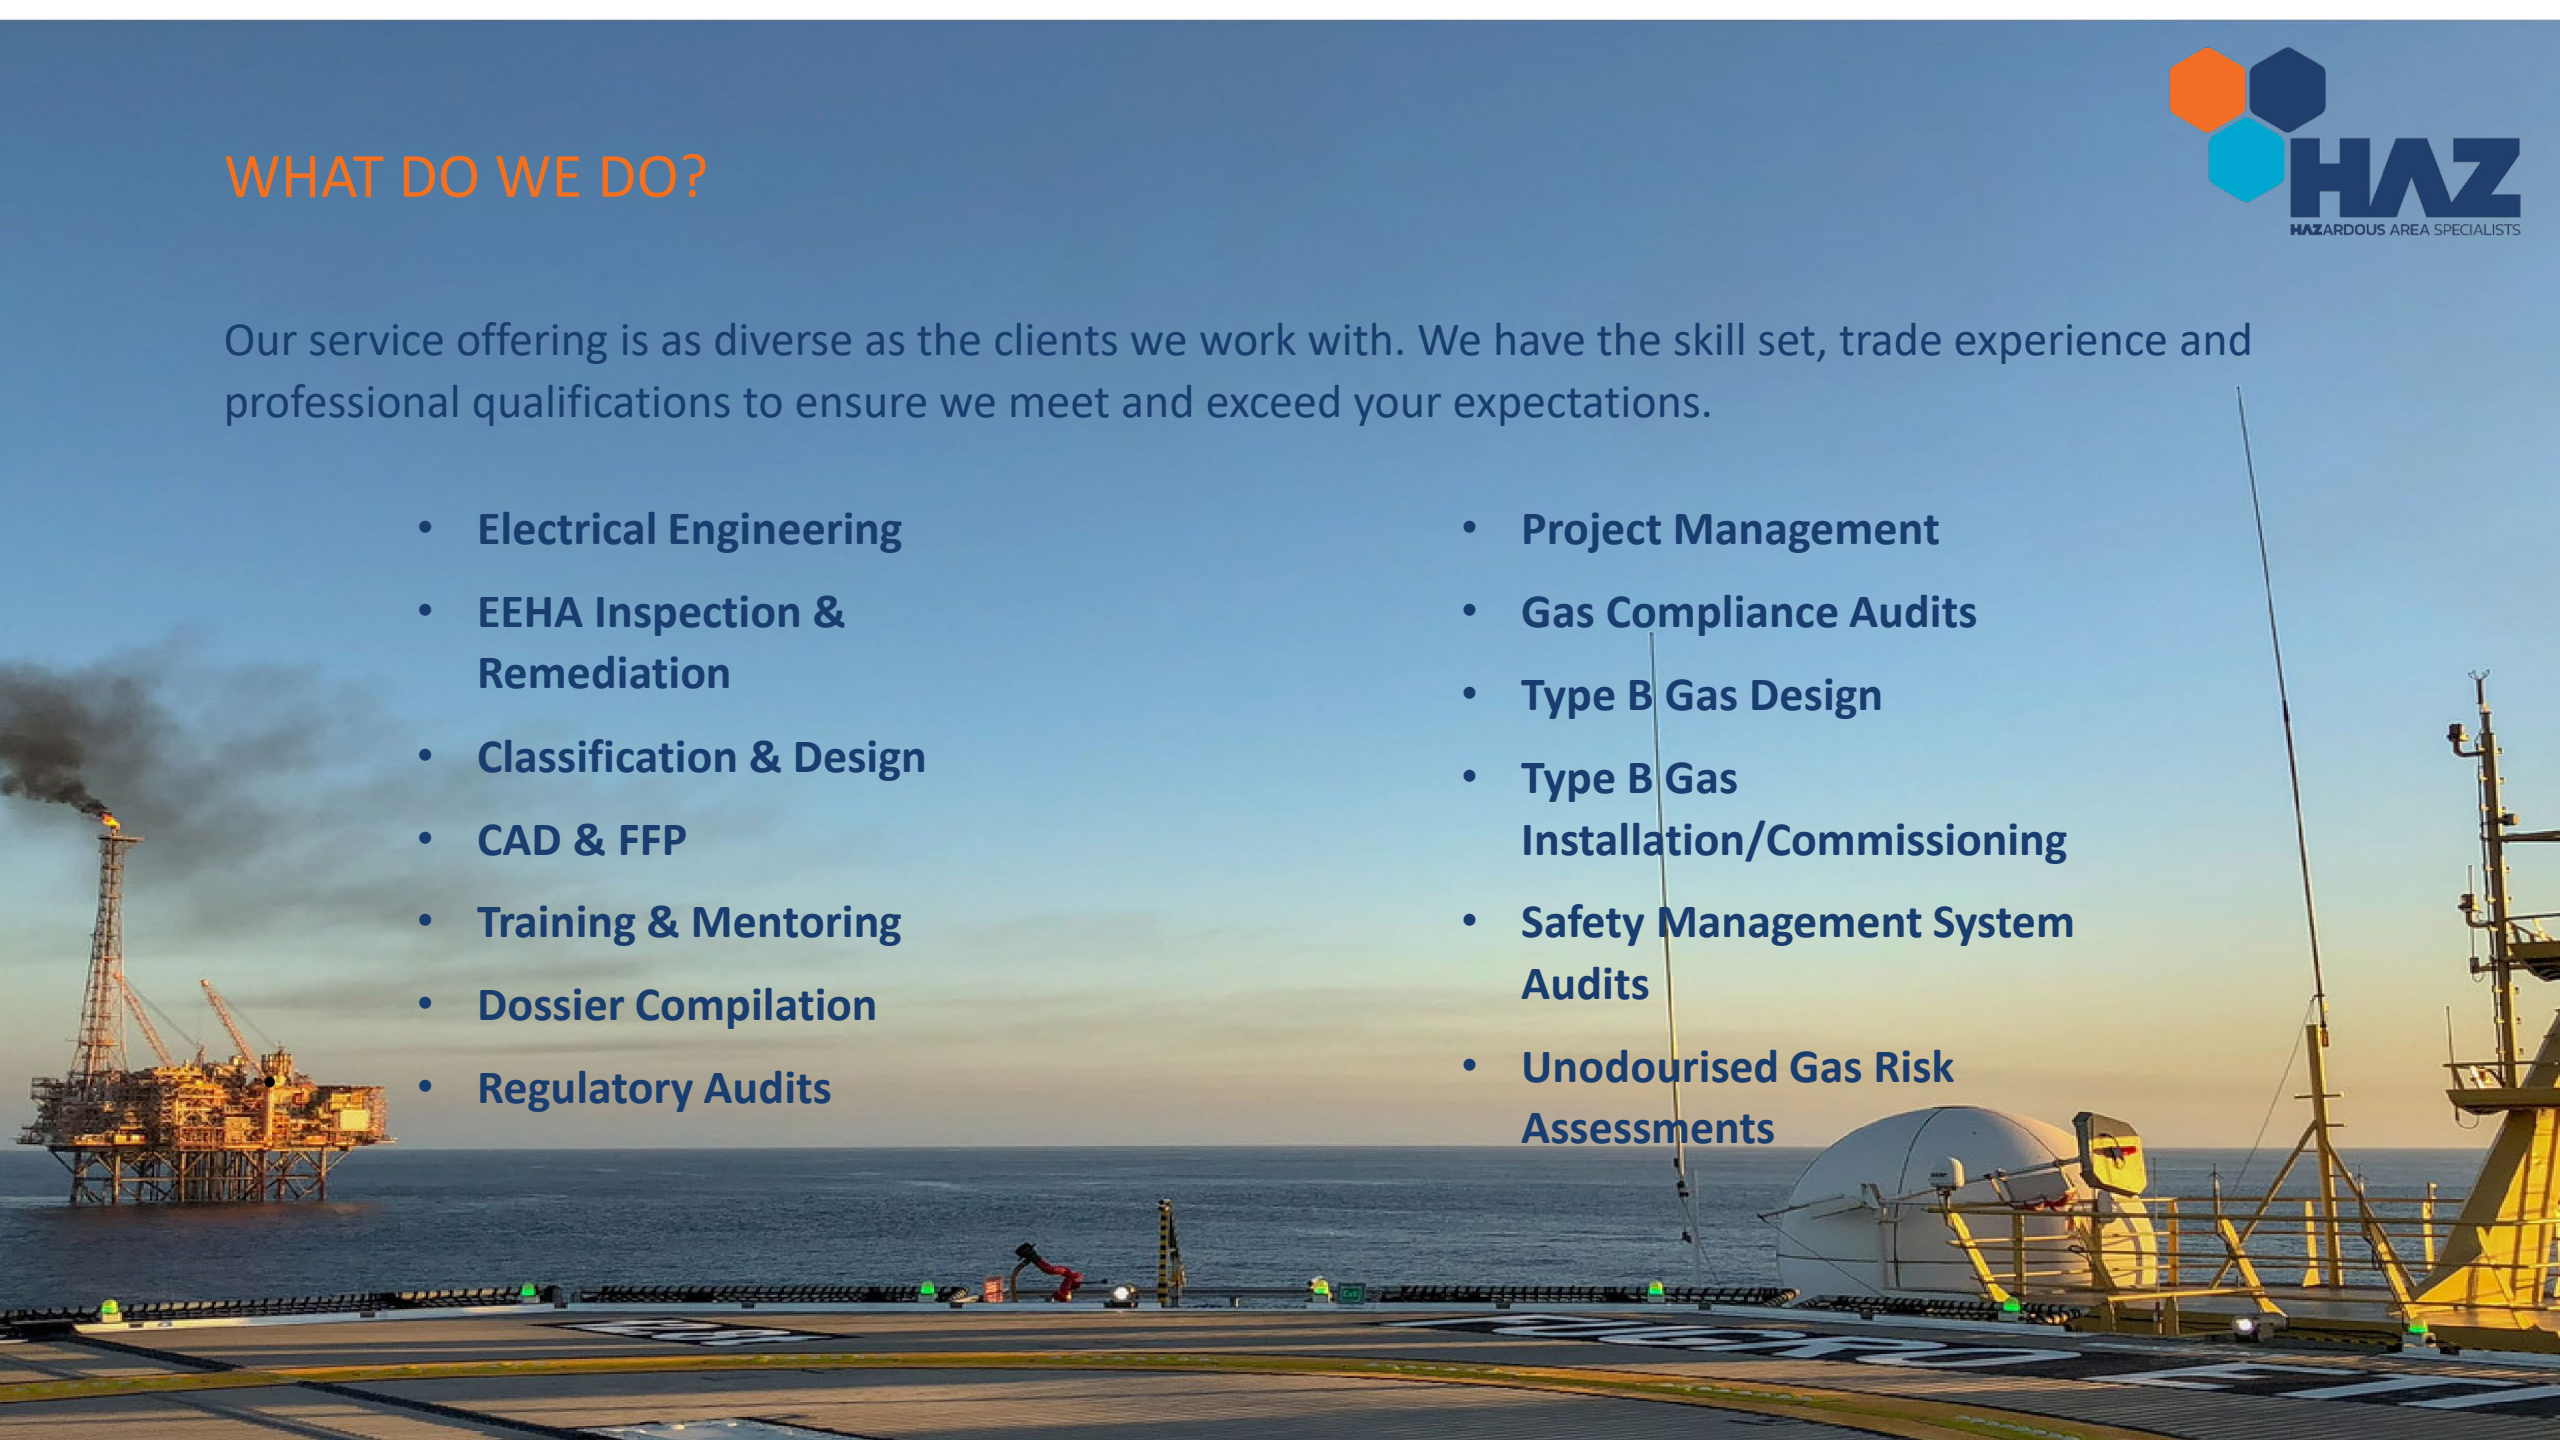

ABOUT US

We are trade experienced and qualified engineers, who simplify your compliance requirements by offering cost-effective solutions for equipment installed and operated in hazardous areas.

WHAT DO WE DO?

Our service offering is as diverse as the clients we work with. We have the skill set, trade experience and professional qualifications to ensure we meet and exceed your expectations.

- **Electrical Engineering**
- **EEHA Inspection & Remediation**
- **Classification & Design**
- **CAD & FFP**
- **Training & Mentoring**
- **Dossier Compilation**
- **Regulatory Audits**
- **Project Management**
- **Gas Compliance Audits**
- **Type B Gas Design**
- **Type B Gas Installation/Commissioning**
- **Safety Management System Audits**
- **Unodourised Gas Risk Assessments**

Our practical approach ensures you are always meeting your compliance obligations in a cost effective, safe and fit for purpose manner.
